

Labeling Capabilities Guide										
Label Type	Machine Type	Adhesive Type	P.E. LABELLERS	PACKLAB	AXON	EPI	ID TECHNOLOGY	OSSID	NJM*	WLS*
Shrink Sleeve	Intermittent Motion	Not Applicable								
	Continuous Motion	Not Applicable								
Stretch Sleeve	Intermittent Motion	Not Applicable								
Cut & Stack	Linear	Cold Glue								
	Roll Through	Hot Melt + Cold Glue								
	Rotary	Hot Melt								
Cold Glue										
Pressure Sensitive	Stand-Alone Labeling Head	Self-Adhesive								
	Linear	Self-Adhesive								
	Linear Trunnion	Self-Adhesive								
	Rotary	Self-Adhesive								
	Print & Apply	Self-Adhesive								
	Digital Printing	Self-Adhesive								
	Weigh Price	Self-Adhesive								
Roll-Fed	Linear	Hot Melt								
	Rotary	Hot Melt								
		Pre-Applied Adhesive								
Outsert (Extended Label)	Linear Top Label	Hot Melt								
	Linear Side Label	Hot Melt								
Combination Label Types	Rotary (Multiple label types on same machine)	Self-Adhesive								
		Cut & Stack Cold Glue								
		Cut & Stack Hot Melt								
		Roll-Fed Hot Melt								
		Roll-Fed Linerless Pre-Glued								
Heat Transfer	Linear	Heat Transfer								
In-Mold	Extrusion Blow Molder	Not Applicable
